

Reshoring and Euroshoring Experts since 2007

Milling

Springs, Stampings, Wire Forms

Additive Manufacturing (3D printing)

Centerless Grinding

Swiss Machining and Mill/Turning

Electronics Connectors/Pins

Chemical Etching and Milling

CNC Grinding

Laser Micro Machining

Manifolds and In-Vitro Devices

Optical

MEMS

Can't find a suitable manufacturer for your challenging small/micro component? Let us put you in touch with one of our domestic and European specialty sources.

Injection Molding

MIM/CIM

EDM

Machining of Hard Materials

Small Tube Bending and Forming

Micro Machining of Wire Stock

Plastics Machining

Electrodeposition/Electroforming

Carbon Fiber (CFRP)

Product Authentication

Grinding of Needles and Cannulas

Coating and Plating

Prototypes to Millions

Above are just a few of the available skills. RepExact is paid by the supplier.
